SAM PARKS FOUND GUILTY

JURY OUT FOUR HOURS-HE'LL BE SENTENCED ON MONDAY.

His Friends Surprised by the Verdlet -wrangle Over the Day of Sentence Delegate Dolan, the Chief Witness of the Day, Denies Mr. Plenty's Story.

Walking Delegate Sam F. Parks of the Housesmiths and Bridgemen's Union was found guilty in Recorder Goff's Court of General Sessions last night, of extorting \$200 on Dec. 19, 1902, from Josephus Plenty of Jersey City. The verdict was announced in court at 11:20 o'clock. Sentence was set for 11 o'clock on Monday morning.

The court room was filled with Parks's own friends but his bondsman, Big Bill Devery, Devery's Assemblyman Butler. who has been a constant attendant and Bernard Lynch, the saloonkeeper who got the Plenty check cashed were not there. Parks's friends were stunned by the blow. They were confident that he would be ac-

Even when he heard Foreman John S. Kenane of the jury answer "Guilty, as charged," Parks showed no emotion. "I demand that the jury be polled," said Lawver A. C. Eustace, sharply. The Recorder directed that it be done, and every

puror answered ves to his name. Parks and his lawyer conferred for a minute or two. Then when Clark Penny started to take the prisoner's pedigree, the court room was surprised to hear Mr. Eustace answer each question with "Under the advice of counsel he refuses to answer. When the clerk had finished, the Recorder asked if sentence should be pronounced at

"We will take the statutory forty-eight hours," said Mr. Eustace.

"I move that sentence be postponed for two weeks," said Assistant District Attorney Rand "There are three other indictments for extortion against Parks that away.

must be disposed of." Mr. Eustace objected to the delay and Rand asked that Parks be remanded until

"I shall not be sitting during the Sep tember term," said the Recorder.

"Then I will move postponement untithe first court day in October," said Mr. Rand. "In view of the dilatory tactics of this man's lawyers it is not likely that he can be brought to trial before that time." The Recorder stopped further wrangling

by the lawyers by announcing: "I will set sentence for Monday morning at 11 o'clock," said he. "The District Attorney may then bring forward any reasons

he has for postponement."
"I'll be ready," said Mr. Rand.

"The prisoner is remanded," said

Parks got up from his leaning position on the rail and went through the passageway around the side of the courtroom leading to the Tombs. As he turned his back to the Court he smiled faintly and as he reached the back of the courtroom he turned his head toward his friends and winked. Then just as he was about to disappear through the door of the passage to the Bridge of Sighs he waved his hat to them. A moment later the door closed behind him and his lawyers abruptly walked

out of court. The punishment for extortion is imprisonment for not more than five years. Assistant District Attorney Rand said that if Parks was put on trial on any of the other indictments it would be in the Criminal Branch of the Supreme Court.

John Dolan, the Jersey City walking delegate, was the chief witness called by Parks's lawyer yesterday. Dolan swore that he was not in Lynch Bros.' saloon at Fifty-third street and Third avenue een noon and 7 o'clock on Dec. 19. The only other persons who testified were called to back up this alibi. They swore to naving seen Dolan in New Jersey before in the afternoon and after 7 in the

Mr Rand in replying sold that the question at issue was solely whether Parks extorted \$200 from Plenty. He made a sensation in court by a dramatic arraignment of Bernard Lynch, who had a seat in the front row of spectators. Lynch got Pienty's check cashed, and Pienty testified that Fariev had said to Lynch; "Sam sent me to cash this check." Farley denied saying it, but Lynch was not called by either side. You have given a bigger blow to Parks than any one in New York." McCarthy then demanded that Neidig be deposed from the chair and that the secretary take his place. Howls and cheers followed till it looked as if there would be

an attack on Neidig. Neidig, ordinarily quiet, showed his colors for once. Pale with rage he advanced to the platform and shouted to the advancing members:

LONDON, Aug. 21.-The Spectator, in connection with the signing of the commercial treaty between the United States and China, including the clause providing time Gleason went down out of reach. for the opening of Mukden and Tatungta on Oct. 8, devotes an article to Secretary of State Hay. It says:

"It is the crowning proof that he is one diplomatists, or rather Foreign Ministers. The incident affords a useful opportunity for considering Mr. Hay's place among the world's statesmen and noting the qualities that have raised him to that great position. His ruling qualities are serenity, firmness. a high sense of honor as well as of public duty, and a wide knowledge of men and ourage which is not uncommon, but he is never awed by rumor, circumstance or

the creation of bogies of any kind." The Spectator pays a high tribute to Mr. Hay's behavior as Ambassador to England, especially during the Spanish war, when a man who was considered to his calmness self-possession, and quiet ability to meet and hold his own with the ablest foreign diplomatists to his training as President Lincoln's secretary during a period which made the Spanish war seem a storm in a tea cup. The article concludes by expressing regret that President Roosevelt, Mr. Hay and others do not collect young men around them and train them in a similar manner for a few years as secretaries, since such training would be invaluable if in later years they were called to serve the State.

TO PUNISH BAD NEGROES. Law-Abiding Members of the Race Form

an Association. ATLANTA, Ga., Aug. 21.-Law-abiding negroes in Atlanta have formed an association to see that the criminal and vicious of their race are brought to justice so that the respectable negroes may not suffer from their acts.

A. W. Burnett, editor of the Atlanta New Era, the best-known negro paper in Georgia, made a round to-night of the negro resorts of Atlanta, and in one of them, hearing a woman cursing some men, had the woman arrested. He will appear as the witness against her. Speaking of his

action Burnett said: "I wish this woman held on the charge of using profane language. It is just or using profane language. It is just such negroes as this that cause our race to be so severely criticized. I am going to do all I can to assist the officers of the law in punishing negroes who have lost respect for their race. I wish all such negroes were in the bottom of the river, for they are a millstone about our neck."

RESCUER DROWNED, BOY SAVED

FOUR IN DIRE PERIL THROUGH A YOUNGSTER'S FOOLHARDINESS.

He Wouldn't Heed a Warning Not to Go In Swimming Where the Tide Was Strong -Three Men Went After Him and One Lost, Leaving a Family Fatherless.

Michael Gleason, the engineer of a hoisting engine on the gas company's pier at the foot of West Seventeenth street, was drowned vesterday afternoon while trying to save ten-vear-old Frank Ryder of 132 Tenth avenue, who was being swept out of the slip by the tide. A second man, Daniel Moriarty, a laborer on the dock, who went in after Gleason, narrowly escaped drowning, and David Reilly, the mate of a sand schooner moored to the pier, who did succeed in reaching the boy, was only saved by the timely arrival of help in a rowboat.

West Seventeenth street touches a point on the shore line which, with Stevens Point in Hoboken, opposite, forms the narrowest spot in the North River. It gets the full weep of the tide as it swings around from the Weehawken flats, and even at flood the current there sets down stream. The city, in extending the riverfront improvements north of Fourteenth street, instead of running the new piers further out into the river, has cut into the shore line across Twelfth avenue. It was in the new slip thus formed at Seventeenth street that

young Ryder went swimming. Earlier in the afternoon Ryder and a number of other small boys wanted to go in swimming off the end of the pier, but the men on the sand schooner Racer, which lay alongside, warned them off. Young Ryder was the only one who persisted. He started from the head of the slip and swam toward the schooner to show the men that he wasn't afraid of the tide.

Swimming back wasn't such easy work, and after a few minutes' hard struggle with the current he shouted for help. Gleason, the engineer on the pier, jerked off his coat and shoes and plunged overboard from the stringpiece. He didn't seem to be much of a swimmer and a moment later Reilly jumped overboard too. He overhauled Gleason and reached the boy just as he had about given up. Young Ryder was wild with fright and grabbed his rescuer around the neck in a grip that

made him helpless. Meanwhile Gleason was seen to be in distress and Moriarty jumped after him. Moriarty could scarcely swim a stroke and was glad to lay hold of a derrick rope which had been thrown out by some of the loungers on the pier. He was hauled ashore. Mean-

James Conklin of 502 West Sixteenth street, a watchman on the pier, had rushed off for a rowboat as soon as Ryder began shouting. He sculled out into the slip, of the ablest and most successful of living reaching Reilly and the boy just as both were about done for. By the time he got them aboard Gleason had gone under fifty feet away. The engineer did not come to the surface again.

Reilly and the boy were taken to the New York Hospital, where they were soon brought to consciousness. Cleason's body was recovered in the slip early affairs, without a trace of the bully or blus- in the evening and was taken to his home, terer in his composition. He is never 403 West Nineteenth street. He leaves a awed, not merely by other men, a kind of widow and two children, a girl of fourteen and a boy of twelve.

Then, according to several witnesses, Daniel jumped into the water, clothes and all. Apparently he cidn't do it to commit spicide, for he swam around a few minutes and then tried to cling to the piles sup-

porting the pier.

Mallabar's cries for help brought Policeman Eldridge and James Eagan, a probationary cop. Eldridge Jumped in after Daniel, who sank just as the bluecoat reached the pier. The policeman dived, but too straight, hit his head on the stones at the bottom. at the bottom and came up nearly uncon-scious. Eagan saw Eldridge's predica-ment and dived after him.

Then, when Eldridge had got his senses back, they went after Daniel. They brought him up, but he was unconscious the policemen couldn't resuscitate

They arrested Mallabar as a suspicious person, thinking the drowning might have been the result of a quarrel, but Coroner Berry released him.

The moment he caught sight of the woman the burglar pulled a revolver from his pocket and threatened to shoot if she made an outcry. Despite the threat, she screamed. The

man fired two shots, but the woman told

the police last night that she thought the man fired them more to frighten her than anything else, because he did not point the pistol at her. The woman screamed all the louder and the thief fled downstairs. He escaped

from the house by a window in the base-

entrance. The caretaker ran out screaming and her outcries brought assistance before the thief could get away. He was seen to leave the house and to run in the direction of the East River and was followed by a crowd attracted by the woman's shrieks.

After being chased as far as Second avenue the man ran into the arms of Patrolman O'Donnell. When searched at the station house his pockets were filled with silver knives, forks and spoons from Mr. Sherman's house. He was also wearing Mr. Sherman's overcoat. He told the police that he was Thomas Dawson of 530 West

OYSTER BAY, Aug. 21.-Gov. Odell's risit here to-day, it is said, has resulted in the establishment of the best relations between the Governor and President Roose velt. After the Governor's departure it was said very positively that he had told the President he would not accept a nomination for a third term, and it was announced with equal positiveness that the Hon. Elihu Root would not be a candidate for the Governorship. Gov. Odell, said one who knew what had taken place at the interview, will not run again under any consideration, and Mr. Root will not con sider for a minute any offer looking toward the place at Albany.

The President, it is said, would gladly support Mr. Odell for a third term, and it is reported here that Mr. Roosevelt's purpose in inviting the Governor to Sagamore Hill to-day was to urge him to accept a renomination; but the Governor, it is said, made it clear that he had no desire to stay longer in Albany.

Gov. Odell got here about 10 o'clock on the New York State steam vacht Aileen. A launchful of uniformed members of the Naval Reserve escorted him to the Emien Roosevelt pier, and the Governor disappeared in the woods on a half-mile wall to Sagamore Hill. He reappeared shortly after 4 o'clock.

Indianapolis, Aug. 21.-Congressman Hemenway has just returned to his home in Warrick county from an extended conference in the East with Congressman Cannon, who is to be Speaker of the House of Representatives, and reports that he will be the next chairman of the House Appropriations Committee. Miss Helen M. Nye's Body Placed in an Old Tomb. Boston, Aug. 21.-In an old tomb Boston Common the body of Helen M. Nye was buried to-day. It was the tomb of her great-grandfather, Benjamin Dearborn. The tomb is on the edge of the Cemetery on the Mall, near Park Square. The vault lies under the sidewalk and to enter it a passage had to be dug in the ground.

Until to-day it had not been opened for eleven years. The tomb was built by Benjamin Dearborn, prominent in the early history of Boston. He was an honored member of the Massachusetts Charitable Mechanics' Association and a friend and coworker of

TRAMP CATCHER SHOT AGAIN.

Tramps, Doesn't Let Bullets Step Him. TRENTON, N. J., Aug. 21.-Detective Dennis Frawley of the Pennsylvania Railroad started out to-night to find Harry Young, a colored man, who earlier in the day had put two bullets into the detective

while the officer was trying to arrest him as a trespasser on the railroad property. Frawley is known throughout this sec ion as a tramp catcher, having arrested about 3,000 tramps. He has been frequently shot, the last time being less than three months ago. One of the bullets to-day took effect in Frawley's arm and the other in his side. The bullets were extracted at

SHAMROCK TO BE REMEASURED

PRICE TWO CENTS.

REPORT THAT SHE DID NOT HAVE ANCHOR AND CABLE ON BOARD.

To Sail in Proper Trim To-day and Go to Eric Basin on Monday-Extra Weight May Put Her Over the 90-Foot Limit -Rival Vachts Try Sails in the Bay

There is more trouble about the measurement of the Shamrock III. and that yacht will go to the Erie Basin again on Monday. and Charles D. Mower will take her water line length again. There is doubt as to whether she had an anchor and cable on board at the time of measuring. It has been asserted that she did.

The rules of the New York Yacht Club say that yachts must have one anchor and cable and certain other fixtures in place when measured and it is the duty of the measurer and of the representative of the club to see that these rules are complied with when a vacht goes under the tape.

The Shamrock III. measured very close to the 90-foot limit of yachts that can race for the America's Cup. She had a fraction over two inches to spare, her water-line length being 89.81 feet. If she had not an anchor and cable when

measured it will probably mean that with

this extra weight on board she will exceed

the limitation of water line length and ballast will have to be removed from the boat to bring her to the proper length. The committee of the club on Cup challenge has been in communication with Col. Sharman Crawford of the Royal Ulster Yacht Club committee, and late terday ex-Commodore Ledvard notified Col. Crawford that the Shamrock was to sail in to-day's race with an anchor and cable on board, and that on Monday she was to be remeasured and at the time of

the remeasuring she was to be in the same trim as when she races to-day. This will mean that if the Shamrock should win to-day and at the remeasurement it is found that she exceeds 90 feet length on the waterline she will be disqualified because she exceeds the limit.

If she is beaten in to-day's race and is

found to be over the length, it remains to

be seen if the committee will call the race off or decide that it stand as one against the challenging vacht. When the challenging and defending yachts are measured representatives of each club and of the challenge and regatta committees are on hand to see that all the rules are complied with. Charles D. Mower did the measuring. N. G. Herre-

liance while Mr. Iselin watched from the edge of the dock. William Fife watched the interests of the Shamrock III. Robert Bacon was on hand as the representative of the New York Yacht Club and H. M. McGildowney represented the Royal Ulster Yacht Club. Newbury D. Lawton was present at the measuring from the regatta committee

shoff looked after the interests of the Re-

of the New York Yacht Club. It is said that the measurement of the Shamrock was protested by the Reliance as he put his hand in his pocket and pulled and a new measurement asked for.

CUP YACHTS TRYING SAILS.

the Bay Many experts who watched the trial between the Reliance and the Shamrock III. on Thursday have figured out that the Reliance is a sure winner of the Cup, but Sir Thomas Lipton and his friends on the Erin are not at all discouraged, and instead of being cast down are rather pleased with the showing that the Shamrock made against the defender. They argue that in the light air that prevailed at the first part of the race, and while they were both on the port tack the Shamrock kept the slight lead she had at the start, and that the Reliance did not gain on her at all until she got a favoring shift during the squall. Capt. Wringe says that he wanted to tack the Shamrock much earlier than he did, but that he was not quite far enough ahead to be sure of crossing the Reliance's bow, and that he did not want to bear off and go astern of the American boat. This shows

that the two were very close together. On both the Shamrock and the Reliance all are satisfied that the attempt showed nothing of the merits of the two boats, and the skippers and crews are content to wait until there is a wind that will hold true and send them over the course in fair time, when the winner will have something to boast of.

The two vachts went out sailing vester-

day morning. Sails were set on both vessels

early in order to let them dry thoroughly in the breeze which was blowing from the northwest. Mr. Iselin boarded the Reliance soon after 10 o'clock and he and Capt. Barr had a conference, and then at 10:30 the vacht slipped her moorings and sailed out toward the entrance to the Gedney Channel. She carried a No. 2 club topsail set over lower sails. The yacht soon headed back toward the Horseshoe. She tried some jibs and fore staysails and then went back to her moor-

ings. Mr. Iselin then went to his home

at New Rochelle. During the afternoon

the sailors were at work on the sails. The

mainsail was hauled out more on the head

and it was said that the lead of some of the sheets was changed. Capt. Barr was seen on the yacht during the afternoon, but he declined to say anything about the failure on Thursday or

about the changes in the boat. The Shamrock started out about an hour later than the Reliance. She sailed about near the Hook and tried some club topsails and other headsails. The spins of both yachts were more to dry the sails and stretch them into shape than any-

thing else. Two new mascots have been received on the Shamrock. They are gamecocks that are said to have fine records. One has been named Garryowen and the other Donnybrook. The two birds were very quiet when the Reliance sailed out of the harbor, but they crowed noisily when the Shamrock got under way, and the sailors declare that a good omen.

In the afternoon Sir Thomas and his friends on the Erin visited the proving ground at Sandy Hook with Gen. Corbin and saw one of the big guns fired. After that they returned to the yacht, where Sir Thomas had a short talk with the re-porters. He said "I don't feel at all discouraged, strange as it may seem to many. In fact I feel rather encouraged by the performance of the Shamrock while the two yachts were sailing with the same wind. Every one else may disagree with
